To whom it may concern,

Rich Chaplain and Hardcore medical have been our medical providers for the last two years of Noisily festival and their service has always been excellent. The team have always been friendly, professional and keen to get on with their job efficiently and with the minimum of fuss.

The medical provision that they provide has always been excellent and whenever faced with difficult incidents, they've tackled them head on and dealt with it efficiently and professionally.

I would highly recommend them,

Yours,

Lachie Gordon
