

'Enabling cultural, social and creative events through direct production support, consultancy, development, training and education'

Dear Event organisers,

This is a testimonial for Hardcore Medical

Richard Chaplain and his merry men & women, are the best team we have ever worked with in over 20 years of overseeing events of up to 250,000 people.

“Always a pleasure to work with they are efficient, and we always feel safe in their hands.”

Being an event safety officer as well as an event producer they are always my preference as I know that First Aid and Fire first reaction is being monitored at all times through the event.

We have worked together on community fun days though to several day long festivals and 24 hour parties and they are the perfect versatile team with the right approach for all of these types of events.

They have always become part of the team and helped delivered the event safety management plan to the fullest in an effective, safe and helpful manner.

Please feel free to contact me if you have any further questions.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'Danny Horwood', written on a light-colored, slightly textured background.
